PROFESSIONAL SUMMARY

Motivated software developer with a solid foundation in Javascript, Python and a passion for solving problems. I am a quick learner who stays up-to-date with emerging technologies and trends in the field. With a strong analytical skillset and a dedication to excellence, I am seeking an entry-level software development role where I can contribute to a successful team and help create innovative solutions

EXPERIENCE

SOFTWARE DEVELOPER

AFRICOM TECHNOLOGIES PLC OCT 2022- FEB 2023

- Collaborated with a team of developers to design and develop a robust document management system using ASP.NET core following the Model-View-Controller (MVC) architectural pattern.

PROJECTS

Tic-Tac-Toe using Reactsjs, HTML, Css

- Create a fully functional Tic-Tac-Toe game that provides users with the option to play against another player or against the computer. Additionally, the game should offer two difficulty levels: 'easy' and 'hard(using minmax algorithms).'

Water Consumption monitoring and Billing System Using React, Nodejs and Mysql

- 0ffers a comprehensive platform for users to track their water usage and conveniently settle bills online. Users can log in to their accounts, view real-time consumption data, and pay bills securely through integrated Chapa payment processing. Admins have access to a dedicated dashboard to manage user accounts, generate bills, and oversee consumption statistics.

Twitter clone django, HTML, Css

- It includes main features of twitter like tweet , like tweet, follow/unfollow user, ssuggestion, update profile.

Social Media Web App Reactjs, mysql, Nodejs, Sequelize(ORM)

- Created a fully functional social media website with user-friendly features, allowing users to follow/unfollow other users, update their profiles with personalized information, engage with posts through comments and likes

Chat application using React, Node js, Socket programing

- Developed a real-time chat application using React for the frontend, Node.js for the backend, and socket programming to facilitate instant messaging and live updates, providing users with a seamless and interactive communication platform.
